

Quarterly operations report

Northern region | Q4 2026

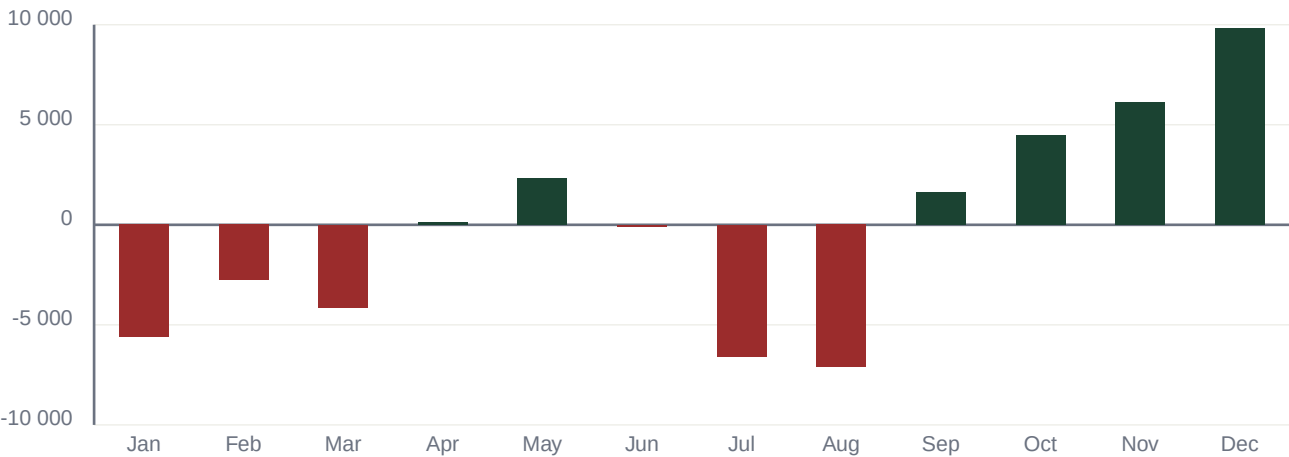

Revenue closed the quarter 12.4 percent above target, carried by a strong November and December. The summer dip repeated the pattern of the previous two years and is treated as seasonal rather than as a warning sign. Service lines are listed in full from page two so the figures can be reconciled against the ledger without a second document.

Revenue against target

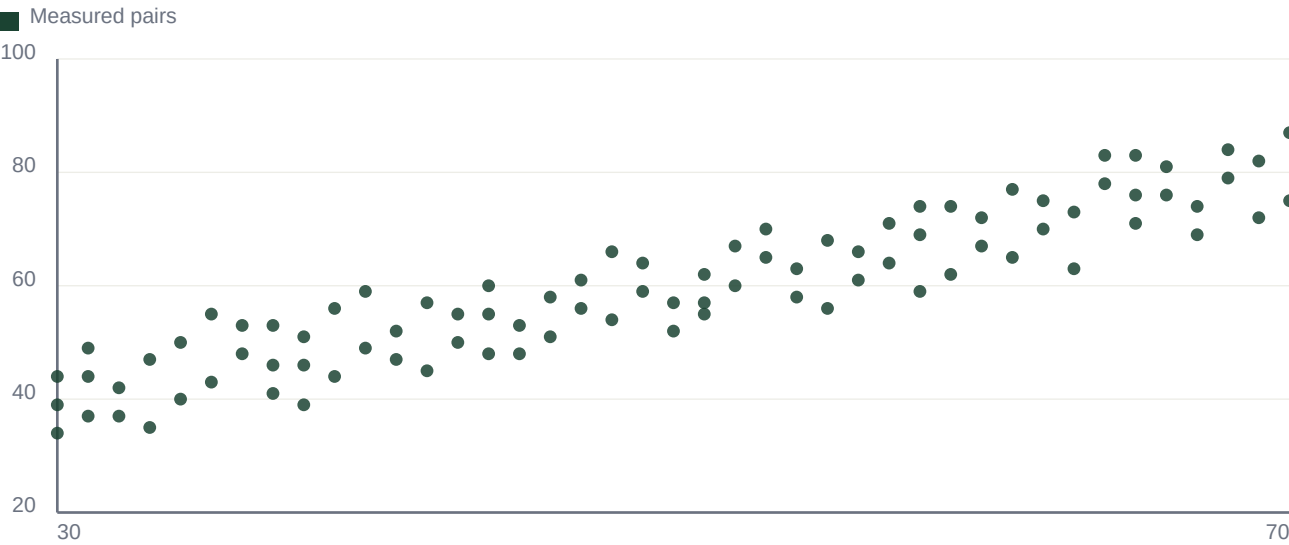

Monthly revenue in euro. The dashed line marks the 24 000 target.

Deviation from target

Difference from target per month. Four months fell short, eight cleared it.

Intake against outcome

Each point is one case: intake score on the horizontal axis, outcome on the vertical.

Service lines

The table below runs past the bottom of the page. Its header repeats on every page it reaches, and no row is ever cut in half.

Code	Description	Qty	Unit	Total
SKU-2100	Service line 1	1	38.00 EUR	38.00 EUR
SKU-2103	Service line 2	2	42.00 EUR	84.00 EUR

All amounts exclude VAT.

Notes

- Line SKU-2133 carries an extended warranty and is invoiced separately in January.
- The July and August shortfall matches the seasonal pattern of 2024 and 2025.
- Outcome measurements were taken by two assessors; inter-rater agreement was not calculated for this quarter.
